'Climate Change The Public Health Response AJPH Vol

May 4th, 2020 - For example global mean temperature has increased approximately 0.6°C since 1860. Rainfall patterns have changed in many regions and sea levels have risen. There is evidence that severe storms have become more common although the science on this point is not settled. Global emissions of CO₂ continue to increase and CO₂ persists in the atmosphere for approximately 100 years.
